

Our family has been informed about the Dual Enrollment partnership between Wilmington University and A.I. duPont High School. I understand all of the items my child will be responsible for by enrolling in this program. I also understand that these classes are actual college courses and the amount of time and effort both in and out of class should reflect as such.

I understand and agree to abide by the important dates such as those for dropping the class, purchasing materials, and completing requirements.

I understand that in order to be successful in the class my student should be present at the scheduled class meeting times and that there will be additional coursework outside of the classroom.

By signing below, I agree to help my student apply to Wilmington University online (www.wilmu.edu/earlycollege click on the dual enrollment tab) and fill out hard copies of the attached informational packet.

Please find in this packet:

- **A Request to Disclose Education Records (FERPA)** This form allows consent to disclose educational records to parent(s) or legal guardian(s). Please note that if the FERPA form is not signed, Wilmington University representatives will not be allowed to discuss a student's grades or progress within our courses with his/her parent(s).
