Policy Statement

The purpose of this policy is to establish standards for the use of physical restraints that conform to 14 Del. C. §4112F (*available at <http://delcode.delaware.gov/title14/c041/index.shtml>*). This policy shall be effective immediately.

A. Definitions:

“Physical restraint” means a restriction imposed by a person that immobilizes or reduces the ability of a student to freely move arms, legs, body, or head. “Physical restraint” does not include physical contact that:

- a. Helps a student respond or complete a task;
- b. Is needed to administer an authorized health-related service or procedure; or
- c. Is needed to physically escort a student when the student does not resist or the student’s resistance is minimal.

“Public school personnel” means an employee or contractor of the District. “Public school personnel” does not include a law enforcement officer.

B. Standards for Physical Restraints:

Public school personnel may impose physical restraint only in conformity with all of the following standards:

- a. The student’s behavior presents a significant and imminent risk of bodily harm to self or others;
- b. The physical restraint does not interfere with the student’s ability to communicate in the student’s primary language or mode of communication;
- c. The physical restraint does not interfere with the student’s ability to breathe or place weight or pressure on the student’s head, throat, or neck;
- d. The physical restraint does not recklessly exacerbate a medical or physical condition of the student;

- e. Less restrictive interventions have been ineffective in stopping the imminent risk of bodily harm to the student or others, except in case of a rare and clearly unavoidable emergency circumstance posing imminent risk of bodily harm, including, without limitation, intervening in a student initiated physical assault or altercation;
- f. For a student with a disability as defined in 14 Del. Code Ch. 32 or 34 C.F.R. part 104, the physical restraint does not contravene provisions in an individualized education program (IEP), behavior intervention plan, accommodation plan, or any other planning document for the individual student;
- g. Personnel use only the amount of force necessary to protect the student or others from the threatened harm;
- h. The physical restraint ends when a medical condition occurs putting the student at risk of harm or the student's behavior no longer presents an imminent risk of bodily harm to the student or others;
- i. The physical restraint is within the scope of force authorized by 11 Del. C. § 468, which bars acts likely to cause physical injury, disfigurement, mental distress, unnecessary degradation, or substantial risk of serious physical injury; and
- j. The physical restraint conforms to applicable regulations promulgated by the Department of Education.

Special Education Students

If a student with an Individualized Education Plan (IEP) or 504 Plan has a recent history of behaviors resulting in use of physical restraint, the student's IEP or 504 Team shall consider the use of positive behavioral interventions and supports, and other strategies, to minimize prospects for recurrence of the behaviors. 14 Del. Admin. C. § 925.24.2.1. If a student's behavior results in repeated use of physical restraint, the student's IEP or 504 Team shall meet to identify new or modified strategies to deter behavioral escalations resulting in use of physical restraint.
