

Set up your Chromebook

1. **Connect your Chromebook to power.**
2. **Turn on your Chrome device.**
 - On the Chromebook, the power button is located at the top.
3. **Connect to a network.** Select a wireless network from the network menu. Or, plug in an Ethernet cable to connect to a wired network.
 - **Home:** *Select your home network.*
 - **School:**
 1. RCCSD (Preconfigured)
 2. REDCLAY (Preconfigured)
4. **Sign in with your Google Account.** In the sign-in box that appears, enter your Google Account username and password and click **Sign in**:
 - Or Sign in to Red Clay Consolidated School District services:
<http://www.google.com/a/redclayschools.com>
5. **Set your account picture.** This picture will represent your account on the main sign-in screen and status area. If you have a Chromebook, you can take a photo with the built-in webcam. If you don't want to take a photo at this time, choose a fun icon instead. Don't worry; you can always update your picture after you've signed in.
6. **Get to know your Chromebook!** After you've set up your profile, you'll be shown the Get Started app. You can learn about your desktop, discover new web apps, find instructions on how to print, and much more. This app is customized based on your Chromebook model so you'll only see information relevant to you.
